Known for his flexibility and calm professional approach, Dan is well suited to any professional environment, delivering the very best in Lighting production. Dan uses the GrandMA2, GranaMA3 and ETC Eos platforms as a programmer, but has in depth knowledge of other console platforms in the project requires flexibility. Dan draws in Vectorworks and has vast experience with WYSIWYG as a visualisation platform, as well as delivering some shows on the GrandMA's internal visualiser to suit budgets.

Regular clients include the Royal Albert Hall and the BBC as well as a host of professional Lighting Directors and Media companies. Dan trained at the Guildhall School of Music and Drama, London graduating with a First Class BA Hons Degree in 2012.

Dedicated and with a keen eye for detail, Dan would be pleased to work with you on your next production.
